

A close-up photograph of a bee on a purple flower stem. The bee is positioned in the center-left of the frame, facing right. It has a yellow and black striped abdomen and a black thorax. The flower stem is purple and has several small, light purple flowers. The background is a soft, out-of-focus green and blue. The text is overlaid on the left side of the image.

Bees have a vital role  
in the well-being of  
the environment.

They must be  
honoured and  
nurtured.

Besides, they add  
*a little poetry*  
to our lives.

The garden and orchard would never be the same without the friendly hum of bees.
